

in partnership with:

Donating equipment is a great way to help support The First Tee of West Virginia. A key component to the development of participants is providing appropriately sized equipment. By donating your unused golf clubs, we receive funds to use towards key initiatives to impact young people throughout the state!

Clubs can be donated at any facility of The First Tee of West Virginia or during registration at any WVGA event throughout the season. Please fill out the requested information below (so we can follow-up with tax deductible information at the end of the year) along with your donation to The First Tee of West Virginia Coach or WVGA staff member.
